

MASTERING HEIGHTS:

ACHIEVE OSHA COMPLIANCE WITH
FALL PROTECTION SOLUTIONS AND TRAINING!

FALL PROTECTION

Fall protection planning and training consistently rank on OSHA's Top 10 Violations list. Don't let your workspace join the statistics. Implement a robust fall protection plan with Werner's top-tier safety products.

FALL PROTECTION TRAINING PROGRAMS

Through a collaborative effort, LineDrive and WernerCo. provide comprehensive fall protection training initiatives for employees potentially exposed to fall hazards. These programs are designed not only to heighten hazard awareness but also to empower employees with the knowledge to mitigate such risks effectively. By educating team members on appropriate procedures, we aim to substantially reduce the prevalence of fall hazards in the workplace. Safety is our priority, and through these programs, we ensure it becomes a shared responsibility.

CHAIR IN THE AIR™

Werner's Chair in the Air™ system revolutionizes suspension trauma management. It swiftly allows users to transition to a safe position, reducing post-fall stress and promoting blood circulation. The harness enables self-rescue in under eight seconds. Its effectiveness has earned top honors for 'Best Harness' and 'Best Retractable' at the National Safety Conference for two consecutive years, reflecting Werner's commitment to safety excellence.

Werner's solutions not only ensure OSHA compliance but also provide a secure environment, shielding your workforce from falls and potentially grave injuries.

FALL PROTECTION PPE

Embrace safety with Werner's extensive fall protection range. Their offerings include **harnesses, lanyards, and self-retracting lifelines** for optimal security. Anchor connectors, horizontal and vertical lifelines facilitate continuous, hands-free work. **Compliance kits and equipment for confined spaces** cater to specific safety needs while drop-safety gear ensures peace of mind.

INSPECTION

Experience streamlined inspections with the integrated **INSPECT!™** and **WebAlert™** features. These tools make the inspection process not just quicker but also more intuitive, simplifying safety assurance for users like never before. With these cutting-edge features, safety compliance is no longer a tedious task, but an effortless routine.

CHOOSE WERNER AND LINEDRIVE, BECAUSE YOUR TEAM'S SAFETY IS OUR TOP PRIORITY!
